

# Case Study: Blue Cross Blue Shield of Illinois

## Introduction

This case study of Blue Cross Blue Shield of Illinois is based on a March 2016 survey of Nlyte customers by TechValidate, a 3rd-party research service.

“Nlyte brought Facilities and DC OPS together.”

## Challenges

- Describes the state of their data center management before adopting Nlyte in the following way:
  - Manual and unscalable record-keeping (spreadsheets, Visio diagrams, etc.)
- Biggest data center challenge before using Nlyte:
  - No accurate asset inventory

## Use Case

- Top criteria for choosing their vendor for data center solutions included the following:
  - Ability to improve capacity planning
  - Ability to provide visibility into key business metrics and data visualizations
- Found the following Nlyte capabilities to be the most valuable:
  - Connection management
  - Pre-built integration and connectors

## Results

- Realized the following benefits after deploying Nlyte:
  - Accurate and detailed data center capacity planning with confidence in capacity data
  - Centralized insight of all data center activities
